DETAILED ACTION

Allowable Subject Matter

Claims 1-5 and 11-16 are allowed.

The following is an examiner's statement of reasons for allowance: The closest references known to the Examiner are listed on the PTO 892 form of the previous Office action. The cited prior art does not disclose or suggest implanting ions using a *single mask and a single implantation step* of an opposite conductivity type from that of a first device area into the exposed portions of the conductive region to form source and drain regions on opposite sides of a gate structure, *wherein the source region include a LDD source region underlying the insulating sidewall, and wherein the drain region includes a LDD drain region underlying the insulating sidewall*, as required by the presently claimed invention. Therefore, the claims at hand are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
